Plumfield Nurseries **EARLY BEARING DWARF TREES**

Dwarf growing, young bearing fruit trees, are not new; they have been successfully grown in Europe for 200 years and in Eastern United States for 75 years. Are becoming more popular every year. They have many advantages in the small yard and garden, bear young, require less space, can be sprayed and pruned easily. The quality of the fruit is as good as fruit grown on standard stocks, and can be harvested without the use of tall ladders.

BE SURE TO GET PLANTING INSTRUCTIONS.

DWARF PEACHES

DWARF ELBERTA—Mid-season. Deep yellow with brilliant blush. Freestone. 11/16 inch caliper, select. **\$3.25 each; lots of 4, \$3.15 each.**

DWARF POLLY—Early. Creamy white with red blush. Freestone. 11/16 inch caliper, select. **\$3.25 each; lots of 4, \$3.15 each.**

Trees on this page cannot be shipped parcel post.

Plumfield Apples

Apple Trees too large for parcel post shipment.

WINTER VARIETIES

	Each	Lots of 4 each	Lots of 8 each	Lots of 12 each
11/16 in. cal., 5-7 ft., select.....	\$1.70	\$1.65	\$1.60	\$1.55
9/16 in. cal., 4-6 ft., standard.....	1.50	1.45	1.40	1.35

THESE PRICES APPLY TO ALL VARIETIES OF APPLES AND CRAB APPLES AS LISTED BELOW.

SUMMER VARIETIES

ANOKA—July to August. This variety fruits very young. Red and yellow striped.

DUCHESS—August. An old variety, but still one of the best. A good cooking apple.

EARLY HARVEST—July. The earliest summer apple. Pale yellow fruit.

EARLY McINTOSH—Two weeks later than Yellow Transparent. Handsome red color and pleasing taste. Good quality.

RED DUCHESS—All red color. Season and quality same as Duchess.

YELLOW TRANSPARENT—July to August. Fruits quite young. Large clear yellow.

FALL VARIETIES

FAMEUSE or SNOW—August. Light red fruit; delicious flavor.

WEALTHY—Early September. One of the old standard varieties. Bears young and is very hardy.

CORTLAND—Deep red. Good commercial variety. Comes into bearing young.

DARK RED JONATHAN—The new dark red Jonathan. Colors two to three weeks earlier than Jonathan, and a deeper red.

GRIMES GOLDEN—Rich golden color. An extra good all-round apple.

HARALSON—Solid red. Fruit is of excellent quality, and a good keeper.

JONATHAN—Red. The best apple of all. Should be included in every planting.

NORTHWESTERN GREENING—Yellowish green. Flesh crisp and juicy. Very hardy.

RED DELICIOUS—Solid red. One of the most popular apples. Fruit large, flesh white, tender and juicy.

STAYMEN WINESAP—Deep red. Good commercial variety.

WINESAP—Crimson. A medium sized apple of fine flavor.

YELLOW DELICIOUS—Golden yellow. Sweet, spicy flavor.

CRAB APPLE

DOLGO—Fiery red. Bears young and abundantly. Tree very ornamental.

WHITNEY—Light yellow striped red. Large fruit.

Plumfield FRUIT TREES

Apricots

CANNOT SHIP BY PARCEL POST

Apricots bloom early and many times are caught by frost. Heavy mulching after the ground freezes solid will retard their early blooming.

CHINESE—Yellow. Large fruit, and very hardy.

MOORPARK—Orange-yellow. Fruit large, with rich, sweet flavor.

	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft., select	\$2.20	\$2.15
9/16 in. caliper, 4-5 ft., standard	1.80	1.75
7/16 in. caliper, 3-4 ft.	1.40	1.35

CHINESE APRICOT

Cherries

CANNOT SHIP BY PARCEL POST

There is no fruit tree more profitable than the Cherry, especially the sour varieties, which are very desirable for pies and canning. They bear fruit very soon after planting and bring good returns on your investment. Cherries are easily raised, as they are adaptable to almost any kind of soil, and should be planted in large enough quantities to insure plenty of this desirable fruit for the family. You may select varieties and obtain quantity prices.

SOUR CHERRIES

	Each	Lots of 4 each
11/16 in. caliper, 5-6 ft., select	\$2.20	\$2.15
9/16 in. caliper, 4-5 ft., standard	1.90	1.85
7/16 in. caliper, 3-4 ft.	1.60	1.55

EARLY RICHMOND—Bright red. Earliest, and a good pie cherry.

ENGLISH MORELLO—Blackish red when fully ripe. Tart, but very rich for canning.

MONTMORENCY—Large, red. The best all-purpose cherry.

SWEET CHERRIES

BLACK TARTARIAN—A big purple-black sweet cherry of fine flavor. Very juicy.

BOHEMIAN SWEET—Red, good flavor and hardy.

YELLOW GLASS—Golden yellow. A hardy and productive sweet cherry.

	Each	Lots of 4 each
11/16 in. caliper, 5-6 ft., select	\$2.80	\$2.75
9/16 in. caliper, 4-5 ft., standard	2.20	2.15
7/16 in. caliper, 3-4 ft., standard	1.70	1.65

MONTMORENCY

Pears

CANNOT BE SHIPPED PARCEL POST

BARTLETT (Summer)—Golden yellow, red cheek. Excellent flavor.

CLAPP'S FAVORITE (Summer)—Large pear. Excellent quality, smooth flesh. Hardy and bears young.

DOUGLAS (Winter)—The best winter pear. Hardy. Bears young and productive.

DUCHESS (Autumn)—Large greenish yellow. Flesh white. Excellent flavor. Hardy and productive.

FLEMISH BEAUTY (Autumn)—Large, beautiful, excellent quality, juicy. Hardy and productive.

	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft.	\$2.00	\$1.95
9/16 in. caliper, 4-6 ft., standard	1.70	1.65
7/16 in. caliper, 3-4 ft.	1.40	1.35

BUSH TYPE CHERRIES

CAN BE SHIPPED PARCEL POST

HANSEN'S BUSH CHERRY—Makes a beautiful shrub, bears almost as much fruit as a plum tree. Good to eat fresh, canned, or in preserves.

3-4 ft., 3 year.....\$0.80 Each; 5 for \$3.75

2-3 ft., 3 year......60 Each; 5 for 2.75

18-24 in., 1 year......15 Each; 5 for .65

BARTLETT

FRUIT TREES • Continued

Trees on this page cannot be shipped parcel post.

WANETA PLUM

Plums

We wish to call your attention especially to the Hansen Hybrids and Minnesota Hybrids. These varieties will produce an abundance of high quality fruit. Usually bear the second year after planting. You should arrange to plant some of these. You may make a selection of varieties and obtain quantity prices.

	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft., select	\$2.00	\$1.95
9/16 in. caliper, 4-5 ft., standard	1.70	1.65
7/16 in. caliper, 3-4 ft.	1.40	1.35

MINNESOTA HYBRIDS

- LA CRESCENT**—August. Large. Golden, blushed with red. Very hardy.
MONITOR—August. Large. Red, very hardy and productive. High quality.
SUPERIOR—Ripens over a long period. Large red fruit, yellow flesh, juicy and sweet. We recommend this variety.
UNDERWOOD—August. Large rich red. Rather oval and juicy. One of the best.

HANSEN HYBRIDS

- KAHINTA**—August. Large red, yellow flesh. Good quality. Very productive.
OPATA—July. Medium size. Fruit purplish-red, with green flesh.
SAPA—July. Medium size. Fruit purple with red flesh. Juicy and very good.
TOKA—August. Large, red and very desirable. Similar to Hanska.
WANETA—August. Large, red and very productive.

PLUM PRUNES

- STANLEY PRUNE**—Good quality, hardy and productive. 5 to 6 ft. \$2.00 each; 4 to 5 ft. \$1.70 each; 3 to 4 ft. \$1.40 each.

Peaches

Next to Apples, Peaches are used for more purposes than most other fruits. Peaches picked from your own orchard are the finest flavored and best. One crop of fruit pays the grower many, many times the original cost of the trees. Peach can be profitably used as fillers in Apple orchards. We carry a long list of varieties and are listing only a few of the most popular.

	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft., select	\$1.50	\$1.45
9/16 in. caliper, 4-6 ft., standard	1.30	1.25
7/16 in. caliper, 3-4 ft.	1.00	.95

- CHAMPION**—Early. White with brilliant red cheek. Freestone.
ELBERTA—Mid-season. Deep yellow with brilliant blush. Freestone.
HALE HAVEN—Mid-season. Orange yellow overspread with red. Freestone.
J. H. HALE—Mid-season. Yellow; almost free from fuzz. Freestone.
POLLY—Early. Creamy white with red blush. Freestone. Very hardy.

CHAMPION

Plumfield SMALL FRUITS·continued

Raspberries

LATHAM RASPBERRIES

Raspberries do well in most any soil. It is best to plant them where they are protected from the hot summer winds as they ripen in July. Raspberries are a very profitable crop.

Blackberries

ELDORADO—These are the hardiest and a favorite with fruit growers. Will stand cold winters and are good market varieties. Fruit medium to large. No. 1 root cutting plants.

5 for \$1.00; 10 for \$1.80; 25 for \$3.75.

Rhubarb or Pie-Plant

CHIPMAN'S CANADA RED—The best of all rhubarbs. Stalks are large and completely red. Retains a rich red color after cooking. Sweetest of all rhubarbs, therefore takes less sugar. Very productive. Pull and use all spring and summer. Seldom produces any seed. 75c each; 3 for \$2.10.

RUBY RED—Seedless. Red all the way through. Extra fine flavor, and very beautiful red sauce. Can be picked all summer. 75c each; 3 for \$2.10.

VICTORIA—Old fashioned green rhubarb. 3 for 50c; 10 for \$1.50; 25 for \$3.50.

BLACK HAWK—Fine quality. Large black berries rich in flavor. A new variety originated by Iowa State University. 2 year old. 5 for \$1.45; 10 for \$1.90; 25 for \$4.90.

CUMBERLAND—Black. One of the most reliable varieties, and widely planted. 2-year old. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.

INDIAN SUMMER—Large glossy red everbearing raspberry with wonderful flavor. Good keeping quality. 5 for \$1.25; 10 for 2.40; 25 for \$5.75; 50 for \$10.00.

LATHAM—Red. A fine fruit for home or market. Large fruit; bears heavily. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00

MORRISON BLACK RASPBERRY—This new raspberry is the largest ever grown. Has very few seeds. A vigorous grower and is rapidly gaining favor among berry growers. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.

SODUS PURPLE RASPBERRY—This is the heaviest bearing of all raspberries. Does well in the Midwest and produced a good crop when many other varieties failed. Upright grower and produces large berries. This variety should not be overlooked as it is an all around berry and has a delicious flavor. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.

CUMBERLAND

Horseradish

Plant a few crowns or cuttings and grow your own. Crowns will produce the first year.

	Per 3	Per 10	Per 25	Per 100
Crowns	\$0.60	\$1.75	\$4.00	\$15.00

Asparagus

MARTHA WASHINGTON—Rustproof. This is undoubtedly the best Asparagus grown. Plant so that crowns will be about four inches deep in the ground, enabling you to cut the stalks below the ground. For best results plant two-year, heavy plants. 10 for 65c; 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.

NEW PARADISE ASPARAGUS—Superior quality. Produces much faster. We recommend this variety. 10 for 75c; 25 for \$1.50; 50 for \$2.75; 100 for \$5.00.

Boysenberries

BOYSENBERRY (Thornless)—Large berries of delicious flavor. Almost seedless. Bears heavily over a long season. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35.

K. A. VIKTORIA

RED SHADES

CHARLOTTE ARMSTRONG—Unique color with long slender blood-red buds opening to magnificent brilliantly colored open flowers, spectrum-red in cool weather, cerise in hot weather. A.A.R.S. award for 1941.

CRIMSON GLORY—Color deep crimson, a "glory" rose, glorious in its perfect form, large size and fragrant.

GRUSS AN TEPLITZ—Vivid, fiery crimson, sweetly fragrant.

ETOILE DE HOLLANDE—Bright, dark red, deliciously perfumed.

McGREDY'S SCARLET—Brilliant scarlet shaded rose-pink; vigorous.

RADIANCE, RED—Bright rose red form of Radiance.

PINK SHADES

PICTURE—Warm pink, undertones of salmon; strong and vigorous.

PINK DAWN—Perfectly formed, deep rose pink, toned orange.

RADIANCE, PINK—Rosy carmine pink, large beautiful form.

THE DOCTOR—Large buds, semi-double flowers. Satiny pink. Fragrant.

WHITE SHADES

CALEDONIA—Large, double white, borne singly on long, strong stems.

K. A. VIKTORIA—Popular, snowy white, double.

McGREDY'S IVORY—Large, well shaped, creamy white. Fragrant.

YELLOW SHADES

GOLDEN RAPTURE—Long lasting, beautifully formed buds, fully double blooms of rich yellow on long stems. A vigorous grower.

MRS. E. P. THOM—Rich lemon yellow, sweetly scented.

McGREDY'S YELLOW—Bright buttercup yellow; perfect form; vigorous.

McGREDY'S SCARLET

TWO-TONED SHADES

MRS. SAM McGREDY—Large double flowers, pointed buds, scarlet-copper-orange. Fragrant.

PRES. HERBERT HOOVER—Orange and pink, flamed and suffused with vivid rose pink.

TALISMAN—A combination of shadings of gold, apricot, yellow, and deep pink.

CHARLOTTE ARMSTRONG

Plumfield ROSES

PATENTED HYBRID TEA

PEACE

AZTEC—(Patent No. 1648) Ovoid buds open to big scarlet-orange blooms; lasting and color-fast. Vigorous semi-spreading plant, and blooms with exceeding freedom. **\$2.75 each.**

CHRYSLER IMPERIAL (Patent No. 1167)—In color, Chrysler Imperial is unmatched by any other red rose. Its vivid rich tones of crimson are enhanced by darker overtones of glowing oxblood red, and the gem-like lustre of garnet in the folds retain its sparkling beauty. Long tapering buds unfold even in adverse weather, opening to high centered flowers measuring 4½ to 5 inches with 40 to 50 wide petals. A.A.R.S. award for 1953. **\$2.50 each.**

FORTY-NINER (Patent No. 792)—Brilliantly hued bi-color that justly secured an All American Rose Selection Award for 1949. Its contrasting colors are startling in their brilliance and yet they blend together beautifully. Inside of petals is a vivid orient-red, while the outside is a chrome-yellow, changing to straw-yellow. The long buds open to a well shaped bloom of 25 to 40 petals. Mildly fragrant. **\$2.50 each.**

GARDEN PARTY—(Patent applied for) New 1960 A.A.R.S. award winner. Extra large flowers of creamy ivory beautifully flushed with pink on outer edges. Adds the fine qualities of its parents Peace and Charlotte Armstrong. Almost continuous bloom throughout season. **\$3.50 each.**

GOLDEN MASTERPIECE—(Patent No. 1284) Enormous fragrant, golden-yellow flowers with high centers. A sensational new rose. Glossy foliage on a strong plant. **\$3.00 each.**

HELEN TRAUBEL (Patent No. 1028)—Color varies with weather. Sometimes a light sparkling pink, more often a luminous apricot. Has unusually large and long buds. Very vigorous grower. All American Rose Selection Award 1952. **\$2.75 each.**

LOVE SONG—(Patent No. 1360) First American bred off-spring of Peace. Large blooms, glowing beauty of radiant, rich salmon-pink, with brilliant yellow on lower third of the petals and a lighter reverse. In bud-deep gold edged with a dark coppery rose. Plants sturdy, well foliaged. **\$2.50 each.**

MIRANDY (Patent No. 632)—First place winner of All American rose competition for 1945. A strong free-branching plant producing large, long-pointed ovoid buds of rich dark red with black shadings, opening to chrysanthemum-red. The flower of 50 petals displays new beauties of form and is long lasting. Marvelously fragrant. **\$2.25 each.**

MOJAVE (Patent No. 1176)—All American Rose Selection Award for 1954. A Charlotte Armstrong cross retaining many of the fine plant characteristics of its parent along with the slender bud of that variety. The color is a blend of salmon, apricot and orange, and occasionally in cool weather the salmon color changes to red blended with the other two colors. **\$2.75 each.**

NEW YORKER (Patent No. 823)—Brilliant red, with color long lasting and sun resistant. Plant is sturdy, upright and vigorous. The buds slowly open into very large flowers, often measuring 6½ inches across, of scarlet with rose red undertones and overlaid with rich velvety-sheen. **\$2.50 each.**

NOCTURNE—(Patent No. 713) The color is bright cardinal red with dark shadings of crimson. The large petals have good substance, are richly textured and pleasantly fragrant flower of long lasting. Color is somewhat lighter and brighter during hot weather. A.A.R.S. award for 1948. **\$2.25 each.**

PEACE (Patent No. 591)—Ovoid buds and golden-yellow etched with pink as they open, color changes from canary-yellow to pale golden. Petals are edged with apple-blossom pink that deepens as the flower slowly opens to glorious 5-inch blooms. All American award for 1946. **\$2.50 each.**

PINK FAVORITE—(Patent No. 1523) Long, pointed deep pink buds nestled in an abundance of glossy disease resistant leathery foliage. **\$2.50 each.**

PINK PEACE—(Patent No. 1759) Both parents Peace seedlings. Enormous dusty-pink flowers of beautiful form carried erect on heavy canes branching freely at base. **\$3.00 each.**

SUTTER'S GOLD (Patent No. 885)—Beautiful, long-pointed, yellow bud, richly shaded with orange and red. Rich tea fragrance not found in any other yellow rose. The 24-petaled flowers are high-centered and richly colored. All American award for 1950. **\$2.25 each.**

ROSE OF FREEDOM (Patent No. 791)—Winner City of Portland Award for 1947. A Hybrid Tea with beautiful 60 to 70 petaled, long-stemmed, currant-red blooms with delightful true rose fragrance. Blooms are normally borne on strong straight 28 to 32-inch stems. New wood usually thornless. A free bloomer and disease resistant foliage. Highest scoring red rose in 1946 and 1947 nation-wide trials. **\$2.00 each.**

SHOW GIRL—(Patent No. 646) Deep pink exhibition rose; one of the best. Flourishes in all climates. Lovely buds on long stems. **\$2.25 each.**

TALLYHO (Patent No. 828)—The color on the inside of the petals is a varying but always a delightful and unique shade of pink. The outside of the petals is a rich Crimson. The buds before they unfold are deep Cardinal-red. The long-stemmed blooms open slowly and last exceedingly well because they have such heavy substance. They are very large when fully open, of perfect form and with spicy fragrance. A.A.R.S. award for 1949. **\$2.25 each.**

Plumfield ROSES

PATENTED GRANDIFLORA ROSES

"The New GRANDIFLORA CLASS consists of varieties relatively tall in growth, free flowering, often with many flowers in clusters but with individual stems long enough for cutting. The flower size, though not necessarily as large as hybrid teas, is larger than the average Floribunda, with Hybrid Tea Standard for bud and flower form."

CARROUSEL (Patent No. 1066)—The large double flowers could easily class this rose as a Hybrid Tea, but the blooms appear in clusters so free blooming it is classed as a Floribunda. Continuous mass of glowing deep red flowers regardless of weather. Tall growing, rather upright. Mildew resistant. **\$2.00 each.**

MONTEZUMA (Patent No. 1383)—The bright orange-scarlet of its fresh buds changes to salmon-orange in the open flower. The sleek buds are borne in profusion. The plant is a tall compact grower with leathery, semi-glossy foliage. **\$2.75 each.**

QUEEN ELIZABETH (Patent No. 1259)—First Grandiflora rose. Pure pink on almost thornless stems which are ideal for cutting. Blooms singly and in clusters. Queen Elizabeth is a cross between Charlotte Armstrong and Floradora. Both of the parents were recipients of the A.A.R.S. for 1955. **\$2.50 each.**

STARFIRE—(Patent No. 1742) Glowing current-red high centered blooms, distinctive, fluorescent, non-fading. Excellent for cutting. Bronzy-green foliage. Vigorous, abundant. A.A.R.S. award for 1959. **\$3.00 each.**

PATENTED FLORIBUNDA ROSES

VOGUE

BABY BLAZE (Patent rights reserved)—A 1955 introduction which features dark red buds, opening to a rich velvety cherry red color and only a few shades lighter when fully opened. Excellent for group plantings, foundation plantings and hedges. Vigorous grower. **\$2.00 each.**

CIRCUS (Patent No. 1382)—New multi-color Floribunda and only winner of A.A.R.S. Award for 1956. The predominant color is yellow with the tight buds richly marked with red. As the blooms unfold, they offer an everchanging succession of delightful shades with the fully-blown flowers putting on a finishing flourish of bright scarlet. Stems are straight and sturdy, fine for cutting. Flowers borne in clusters. Fragrant **\$2.50 each.**

FASHION (Patent No. 789)—Brilliant luminous coral flowers overlaid with gold, opening with wavy graceful petals. All season bloom, large clusters and singly. All American award for 1950. **\$2.00 each.**

PATENTED FLORIBUNDA ROSES—Cont'd

FIRE KING—(Patent No. 1758) 1960 A.A.R.S. award winner. Blood-red pointed buds open to glamorous, brilliant red blooms. Long lasting 45-50 petaled flowers 2½-3 inch diameter. Dark green leaves with reddish cast in tips on tall attractive bush. **\$2.50 each.**

GOLDLOCKS (Patent No. 672)—Rich golden yellow, buds are ovoid in shape, long lasting, hardy and vigorous. **\$1.75 each.**

INDEPENDENCE (Patent No. 1036)—Of medium height. Large brilliant orange-scarlet or better described as firecracker red. **\$1.75 each.**

MA PERKINS (Patent No. 1143)—1953 A.A.R.S. winner. This very free blooming floribunda rose, with its sweetly pungent fragrance, shows a translucent light fashion color with shades of red in outer petals. Flowers are cup shaped. Rich green foliage. **\$2.00 each.**

PINOCCHIO RED (Patent No. 812)—Masses of unfading clusters. Rich carmine; gradually deepens as blooms open. Wild rose fragrance. Prolific bloomer. **\$1.75 each.**

PINOCCHIO WHITE (Patent No. 1010)—New outstanding floribunda, semi-double flowers of pure white with yellow stamens. Large 2 to 2½-inch flowers. **\$1.50 each.**

PINOCCHIO YELLOW (Patent No. 992)—Newest member of the Pinocchio family. Sturdy bush about 3 feet tall, producing great masses of bloom in an apricot-yellow color. **\$1.50 each.**

SPARTAN (Patent No. 1357)—A rich warm new rose with a scintillating color of sparkling orange red in bud which gently softens to a reddish coral at the finish. Flowers are produced both in large clusters and singly on long stems. Foliage is a rich dark green and one of the toughest and most disease resistant of any rose. **\$2.50 each.**

VOGUE (Patent No. 926)—New floribunda with its own unique brilliant glowing cherry-coral color. Individual flowers 3 to 4 inches in diameter are hybrid tea shaped with perfect high centered form. They open slowly from a dark cherry ovoid bud to the delightful cherry-coral open flower. Rich spicy fragrance. A.A.R.S. award for 1952. **\$2.00 each.**

WHITE BOUQUET (Patent No. 1415)—1957 A.A.R.S. Award. Lovely white gardenia-like blooms. Sweet spicy fragrance. Flowers in clusters and individual blooms. Medium sized plant. Excellent for bedding or border planting. **\$2.50 each.**

WHITE BOUQUET

Be sure to read our Planting Instructions, "How to Plant Your Roses." This is important if you expect to get a good survival.

Plumfield ROSES

GOLDEN SALMON SUPERIOR

BABY and FLORIBUNDA ROSES

2 year select plants, \$1.25 each; 3 for \$3.50; 12 for \$13.50.

BABY CHATEAU—Deep red massive blooms. One of the best of its type.

DAGMAR SPAETH—Alabaster white edged pink.

EUTIN

BABY and FLORIBUNDA ROSES Continued

EUTIN—Large clusters of very double, deep red flowers. Large flowers. Mildew resistant bush. One of the best.

FLORADORA—Scarlet and geranium red floribunda producing double 25 petaled flowers. Height 2½ ft.

GOLDEN SALMON SUPERIOR—Bright orange salmon. Blooms continually. An improvement on Golden Salmon.

LAFAYETTE IMPROVED—Large clusters of bright cherry crimson.

DAGMAR SPAETH

PINOCCHIO—A hardy plant producing an abundance of pointed buds of salmon-flushed gold, opening to miniature hybrid tea-like roses of soft clear pink, and in great clusters.

WORLD'S FAIR—First award, "All American Rose Selection for Floribunda, 1940" Produces large clusters velvety bloom of fragrant blackish-scarlet with mass of golden stamens.

Nurseries and Sales Grounds**

CLIMBING ROSES

BLAZE—Hardy, vigorous climbing rose similar to Paul's Scarlet. Recurrent blooming. Scarlet crimson flower. 2 year select, \$1.25 each; 3 for \$3.50.

BLAZE IMPROVED—New improved strain of the popular Blaze climber. 2 year select, \$1.40 each; 3 for \$4.00.

BLAZE IMPROVED

NEW DAWN—Everblooming climbing rose. Apple blossom pink flowers with old-rose fragrance. 2 year select, \$1.25 each; 3 for \$3.50.

GOLDEN SHOWERS (Patent No. 1557)—A winter-hardy, everblooming Pillar and Climbing Rose that actually blooms from early spring through late fall. The buds and flowers are exquisitely shaped daffodil yellow, long pointed buds with fragrant, high centered, 25 to 30 petaled, 3½ to 4 inch, yellow open blooms. Almost thornless. Highly resistant to mildew and black spot. 1957 A.A.R.S. winner. \$2.75 each.

PAUL'S SCARLET—Intense scarlet flowers of excellent shape and moderate size. Borne in small trusses. 2 year select, \$1.25 each; 3 for \$3.50.

PEACE CLIMBER—(Patent No. 932) Vigorous climbing form of the famous bush hybrid tea. 2 year select, \$2.25 each.

How To Plant Your Roses

To obtain success in growing roses it is important that they are properly planted. The roots should be trimmed back some and the hole dug large enough so that roots will not be crowded. Place the plant in the hole so that the bud union above the roots is at least two inches below the level of the ground, then fill in around the roots with dirt and water in well. After the water has seeped away, cut each cane back to about four inches above the level of the ground and cover the plant over completely with a mound of earth. After about six inches of new growth has forced through the mound of earth you can hoe the mound away gradually.

A SHRUB AND EVERGREEN PLANTING TWO YEARS OLD

HOME FRUIT AND GARDEN SPRAYING CHART

(One Gallon—Tablespoon Spraying Formulas)

FIRST SPRAY				
Fruit or Vegetable	FOR	PURPOSE	TIME	SPRAY SOLUTION
Apple Pear Cherry Peach Plum	BARK SPRAY Including all forms of scale and scab.	To increase life, vitality and productivity of tree.	When the leaves have fallen in the fall or before the leaf buds have formed in the spring.	For each gallon use 10 tbsp. Dry Lime Sulphur.
	SECOND SPRAY This is the Most Important Spray as to results and time of application			
	WORM SPRAY	To kill the fruit worms and insects of leaf and bark.	When the petals of the blossom are about one-half fallen.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Dry Lime Sulphur 1 tsp. Nicotine Sulphate
	LEAF SPRAY	To control disease and kill worms and insects developed after second spray.	Two weeks after second spray—and extra spray should worms and insects appear.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Dry Lime Sulphur 1 tsp. Nicotine Sulphate
FIRST SPRAY				
Currant Gooseberry Raspberry Blackberry	BARK SPRAY Including all forms of scale and scab.	To increase life, vitality and productivity of plant.	Early in the spring while plants are dormant.	10 tbsp. Dry Lime Sulphur
	WORM SPRAY	To kill fruit worms, control disease, kill insects of leaf and bark.	When worms first appear and thereafter at 14-day intervals until five applications have been made.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Dry Lime Sulphur Add 1 tsp. Nicotine Sulphate to first application only.
REGULAR AND EXTRA SPRAYS				
Grape	BUG AND INSECT SPRAY	To kill bugs and prevent wormy fruit.	As soon as foliage appears and repeat at 15-day periods until four applications have been made.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Prepared Bordeaux Mixture If Lice appear add 1 teaspoon Nicotine Sulphate.
REGULAR AND EXTRA SPRAYS				
Potato Cucumber Muskmelon Tomatoes	BUG AND BLIGHT SPRAY	To kill bugs and control blight, especially with potatoes.	When plants are real young and thereafter at 10-day intervals until five applications have been made.	2 tbsp. Dry Arsenate of Lead 3 tbsp. Prepared Bordeaux Mixture. When small Lice appear add 1 teaspoon Nicotine Sulphate.
REGULAR AND EXTRA SPRAYS				
Rose Bushes and Other Shrubbery	BUG, INSECT AND LEAF DISEASE SPRAY	To kill insects and bugs and increase vitality of shrub.	Apply as foliage appears, especially on Rose Bushes and thereafter at two-week intervals.	2 tbsp. Dry Arsenate of Lead 3 tbsp. Prepared Bordeaux Mixture.
	GREEN LICE (Aphis) SPRAY		As lice (Aphis) appear.	1 tsp. Nicotine Sulphate. Use in combination with Arsenate of Lead and Bordeaux spray or separately, as desired.

(†Shrubs with attractive berries)

ALMOND PINK—A dwarf early flowering shrub. Branches covered with beautiful rose-colored flowers.
18-24 in.\$1.25 2-3 ft.\$1.50

ALTHEA—A beautiful upright shrub. Flowers freely during August-September.

Anemonaeflous, (pink-d), 2-3 ft.\$1.10
Ardens, (purple-double), 2-3 ft. 1.10
Boule de Feu, (red-d), 2-3 ft. 1.10

BARBERRY (Red Leaved)—Red foliage, with red berries in the winter. Must be planted in the sun in order to bring out the color of the foliage.

15-18 in.\$1.15 18-24 in.\$1.40
2-3 ft. 1.65

BARBERRY THUNBERGI—Green leaved. A useful shrub for border and foundation planting. Leaves change to brilliant crimson scarlet and gold in the fall and red berries remain almost all winter.

12-15 in.\$0.60 15-18 in.\$0.80
18-24 in.95 2-3 ft. 1.10

BEAUTY BUSH—Blooms in early summer. Long arching branches covered with clusters of pale pink trumpet shaped flowers.
18-24 in.\$1.40 2-3 ft.\$1.65

BUTTERFLY BUSH (Ile de France)—A perennial shrub dying to the ground in winter, producing large flowers of rich reddish purple in long panicles.

No. 1\$0.90 3 for\$2.55

BUTTERFLY BUSH (Charming)—Long sprays of lavender-pink blooms which are quite pink compared with other varieties of Butterfly Bush.

No. 1\$0.90 3 for\$2.55

BUTTERFLY BUSH (Royal Red, Patent No. 556)—A new variety of merit, producing from July until frost an abundance of large, fully round sprays of 2 ft. in length; color rich dark royal purple, intensified to almost red when displayed under artificial light. Plant attains 4-6 ft. height, and foliage is deep leathery green.

No. 1\$1.10 each

BEAUTY BUSH

Flowering SHRUBS

CARYOPTERIS, Blue Mist—Low growing shrub covered with numerous clusters of powdery blue, fringed flowers from August to frost.

No. 1\$.90

CARYOPTERIS HEAVENLY BLUE (Patent No. 1091)—Deep blue colored selection of the well known Blue Mist. Upright in growth and more dwarf than its parent. One shrub will produce 30 or more beautiful deep blue flower spikes, a rare color particularly in the autumn garden.

No. 1\$1.50

COTONEASTER (Acutifolia)—Glossy, dark leaves turning to brilliant shades in the fall. Black fruit.

18-24 in.\$0.90 2-3 ft.\$1.35

3-4 ft.1.65

DOGWOOD (Goldentwig)—Yellow branches and canes. Small white flowers followed by silver berries.

2-3 ft.\$1.35 3-4 ft.\$1.65

DOGWOOD (Red Bark)—A favorite shrub because of the red bark on twigs and canes during the winter. Silver berries.

18-24 in.\$1.00 2-3 ft.\$1.35

3-4 ft.1.65

ELDER (Golden Leaved)—Bright yellow foliage throughout the summer. The berries attract the birds.

2-3 ft.\$1.40 3-4 ft.\$1.65

EUONYMUS ALATUS COMPACTA—Dwarf compact form. Leaves turning brilliant crimson in autumn. Splendid for hedges.

2 to 3 ft.\$3.40

FORSYTHIA

FORSYTHIA or GOLDEN BELL (Intermedia)—Early blooming shrub of a spreading habit of growth. Very free blooming.

18-24 in.\$1.10 2-3 ft.\$1.40

3-4 ft.1.65

FORSYTHIA SPRING GLORY—A new forsythia that produces an abundance of attractive large pale yellow flowers completely covering the branches in the spring.

2-3 ft.\$1.40

HONEYSUCKLE CLAVEY'S DWARF—A new hardy dwarf Honeysuckle recently introduced. Small yellow flowers in May. Red berries.

2-2½ ft.\$1.40

Special Landscape grades available at slight additional charge

FLOWERING QUINCE

HONEYSUCKLE PINK TATARIAN—Planted extensively, bearing heavily with pink blossoms, and producing large quantities of scarlet berries.

18-24 in.\$0.95 2-3 ft.\$1.25

3-4 ft.1.50

HONEYSUCKLE, ZABEL—Improved strain of Red Tatarian; a very good red.

18-24 in.\$1.00 2-3 ft.\$1.25

3-4 ft.1.50

HYDRANGEA P. G.

HYDRANGEA PANICULATA GRANDIFLORA—Large showy panicles of creamy white flowers changing to rose, then purple and bronze. Blooms late summer.

12-18 in.\$0.80 18-24 in.\$1.15

2-3 ft.1.40

HYDRANGEA ARBORESCENS GRANDIFLORA—Blooms in mid-summer. Blossoms resemble huge snowballs.

12-18 in.\$0.80 18-24 in.\$1.15

2-3 ft.1.40

Plumfield Flowering SHRUBS • Cont'd

LILAC

LILAC ROTHOMAGENSIS (Chinese)—A tall growing shrub with slender, arching branches producing purplish-red flowers.

18-24 in. \$1.15 2-3 ft. \$1.40
3- 4 ft. 1.65

LILAC ROTHAMAGENSIS RED—Similar to above but its red-toned flowers are much more attractive.

18-24 in. \$1.25 2-3 ft. \$1.50
3-4 ft. 1.75

FRENCH LILACS

Alphonse Laval—Double lilac.

Belle de Nancy—Double rose, with white center.

Chas. Joly—Double purple.

General Sheridan—Double white.

Jacq. Collett—Double pink.

Michel Buckner—Single lilac.

Mme. Abel Chatenay—Double white.

President Grevy—Double bluish lilac.

18 to 24 in. \$1.65 2 to 3 ft. \$2.10
3 to 4 ft. 2.75

PHILADELPHUS CORONARIUS (Sweet Mock Orange)—Tall growing, producing a profusion of large white, fragrant blossoms. Bloom in late spring.

2-3 ft. \$1.40 3-4 ft. heavy \$1.75

PHILADELPHUS GLACIER—Large, white flowers, very double, sweet scented. Shrub hardy, symmetrical and compact. Leaves bluish green. Does not grow as fast as standard varieties of Philadelphus, therefore more desirable for average garden or lawn.

18-24 in. \$1.15 2-3 ft. \$1.40
3- 4 ft. heavy 1.75

FLOWERING QUINCE (Cydonia Japonica)—Scarlet flowers appear before the leaves. A very popular shrub.

12-18 in. \$0.90 18-24 in. \$0.95
2- 3 ft. 1.25

PHILADELPHUS GLACIER

SNOWBALL—See Viburnum Opulus Sterillis.

SPIREA ANTHONY WATERER—A popular low-growing shrub, in bloom constantly all summer. Large, flat clusters of deep rose colored blossoms.

12-15 in. \$1.00 15-18 in. \$1.15
18-24 in. heavy 1.40 2-2½ ft. 1.65

SPIREA, BLUE MIST—See Caryopteris.

SPIREA FROEBELI (Froebel's Spirea)—Dwarf, vigorous grower. Young foliage tinged red, flowers rose color.

12-18 in. \$0.85 18-24 in. \$1.00
2- 3 ft. heavy 1.15

SPIREA MULTIFLORA—Semi-dwarf shrub that resembles both the Spirea Arguta and Spirea Thunbergi. Grows well in both shady and sunny places. Flowers are white, blooms early in spring before the foliage starts. Ideal for foundation plantings.

2-3 ft. \$1.25 3-4 ft. \$1.50

SPIREA THUNBERG—Graceful early flowering shrub. Pure white flowers, bright green feathery foliage.

18-24 in. \$1.15 2-3 ft. heavy \$1.25

SPIREA ANTHONY WATERER

Special Landscape grades available at slight additional charge

Plumfield Flowering SHRUBS • Cont'd

SPIREA VANHOUTTE

HIGH BUSH CRANBERRY

SNOWBALL

HIGH BUSH CRANBERRY (*Viburnum Opulus*)—Single white flowers in spring followed by red berries that hang on almost all winter.

18-24 in. \$1.25 2-3 ft. heavy \$1.50

RED OR WHITE SNOWBERRY (*Symphoricarpus*)—Pink flowers in mid-season, followed by berries that hang on into the winter.

18-24 in. \$0.65 2-3 ft. \$0.80
3-4 ft. heavy 1.00

SNOWBALL (*Viburnum Opulus Sterilis*)—One of the best loved of spring flowering shrubs. Large balllike clusters of flowers. Does not produce fruits or seeds.

18-24 in. \$1.40 2-3 ft. heavy \$1.75

SPIREA VANHOUTTE—The most popular of all the Spireas. Arching branches covered with white blossoms, in spring.

12-18 in. \$0.65 2-3 ft. \$1.00
18-24 in.80 3-4 ft. heavy 1.25

TAMARIX HISPIDA (*Kashagar Tamarix*)—Soft, feathery, silver foliage. Bright pink flowers freely produced.

18-24 in. \$1.00 2-3 ft. \$1.25
3-4 ft. heavy 1.40

WEIGELA BRISTOL RUBY (Patent No. 492)—Improved Weigela Eva Rathke hardier and more thrifty. Large soft ruby-red flowers, shading to garnet crimson.

2 to 3 ft. \$2.20

HEDGING

A well cared for hedge brings to your home that distinguished touch of beauty and dignity. Formal hedges, such as Privet, should be pruned often throughout the summer.

Use the taller-growing Hedging shrubs to transform your back yard into an Outdoor Living-room with walls of living green. The tall hedge will give you privacy.

AMUR RIVER PRIVET

This is a lighter grade of stock than our standard shrub grades. It is young healthy stock and will do well.

BARBERRY, THUNBERGI—Two-year-old seedlings.

HOW TO PLANT

In planting in yard, garden, or field, the ground should be well prepared, and stock should be handled with least possible exposure. We offer the following suggestions on some of the more important plants.

How to Plant Roses

How to Plant Balled Evergreens

Wrong Way

Right Way

To determine the number of plants required per acre for any distance multiply the two plant distances and divide the product into 43,560 (the number of square feet per acre).

PLANTING DISTANCE OF FRUIT TREES

	Usual recommended distance	Best average distance	Number Per acre at average distance		Usual recommended distance	Best average distance	Number Per acre at average distance

FARMSTEAD WINDBREAK PLANTINGS

The pictures on this page of farmstead plantings are becoming common sights throughout the Midwest. We can think of no greater contribution toward the beautifying of our midwestern states than what these many farmstead plantings present us with. We must all remember that our complete livelihood depends upon the soil, therefore we must preserve it. Properly planted windbreaks pay good dividends. They protect against hot winds from burning up crops as well as carrying the top soil away. They protect livestock and farm buildings from cold winds and snow. Remember, wind dries out the soil and dry soil seldom produces profitable crops.

C. F. KUEHL FARM, MILLARD, NEBRASKA. THIS FARMSTEAD PLANTED WITH PLUMFIELD NURSERY STOCK IN 1942.

Farmstead Windbreak of Evergreens showing method of planting.

The large Evergreens in this planting add a lot of beauty to this farm home, as well as stopping hard driving winds, also stops dust from gravel and dirt roads.

Lombardy Poplar Windbreak in one of our evergreen fields.

Protecting young shrubs in our field with an evergreen windbreak.

Chinese Elm background furnished much protection in our baby evergreen fields.

FOREST TREE SEEDLINGS...

for Windbreak, Shelterbelt and Woodlot Plantings

It is good farm economy to systematically plant and maintain carefully arranged farm plantings. You may plant them to protect the farm buildings and feed lots against cold winter winds, or to trap heavy snow-falls and keep it out of the corrals and farm yard. In much of this plains country the winds often blow the soils and cause them to drift badly. Good shelterbelt plantings will do much to save the soils and protect the crops.

Besides improved farm appearance, plantings soon grow into a source of wood supply, posts and lumber. A good farm planting is a valuable asset which grows in value each year.

The selections of deciduous (broadleaf) trees listed below are those species which have proved to be the most valuable for the midwest area. Many farmers and ranchers consider it a good practice to use a row or two of shrubs in each planting which aids the trees by keeping down internal wind movement and the loss of valuable leaf litter. Shrubs also become a source of food and cover for desirable wildlife. All our stock is carefully graded and selected to insure vigor and good survival.

For the best arrangement and selection of species for your individual needs we suggest that you consult your Soil Conservation District or your County Agent.

If mail shipment is desired, add 20% to order unless order is under \$3.00, then add 60 cents to cover special packing and postage. Otherwise we will ship best way, charges collect.

EVERGREENS for Windbreaks . . .

Evergreens are the most valuable of all trees for farmstead plantings because of their lasting beauty and the fact that they form a dense effective wind barrier for the entire year. They are slightly more difficult than deciduous trees to establish, but are well worth the required extra care. Most of the species should provide protection for 100 to 300 years if fenced from livestock. You may plant them as a solid evergreen planting or as a row or two along a deciduous windbreak. They should be cultivated clean for the first few years until they shade out competitive vegetation.

Evergreens cannot be packed with other stock but will be shipped separately because, as a rule, the frost does not go out of the ground as soon around evergreens.

TRANSPLANTING—These Evergreens have all been transplanted one or more times. The letter "T" following the size indicates the number of times transplanted. Transplanting is done to develop more fibrous roots which start much faster than large heavy tap roots. This class of stock will give you a better percentage of survival than stock not transplanted. For the fact these cannot be packed with other stock, we will ship POSTPAID.

Plumfield EVERGREENS

Spruce and Pines

SPECIMEN STOCK

CANADENSIS ALBERTIANA

Black Hills Spruce

Native of the Black Hills of South Dakota. Foliage varies from dark green to blue. One of the most hardy Spruce. Grows symmetrical, compact and very shapely.

2-2½ ft.....	\$ 7.50
2½-3 ft.....	8.50
3-3½ ft.....	10.50

PINUS STROBUS

(White Pine)

Native of the North and planted extensively in the Middle West. Grows from 12 to 18 inches a year. Ultimate height 60 to 80 feet. Foliage bluish green, needles soft, 2 to 3 inches long.

2 to 2½ ft.	\$ 6.50
2½ to 3 ft.	8.00

COLORADO BLUE SPRUCE

Select Color

A selected blue colored type. Taken from Colorado Blue varieties.

2½-3 ft.....	\$15.00
3-3½ ft.....	17.50
3½-4 ft.....	20.00

PINUS REGENSIS SYLVESTRIS

(Scotch Pine)

This variety has superiority over other Scotch Pines. Very hardy. Grows straight and fast, does well on light, dry soils. Grows from 12 to 18 inches a year. Ultimate height 60 to 80 feet. Foliage light green, needles 2 to 3 inches long, buds brown.

3 to 3½ ft.	\$10.00
3½ to 4 ft.	12.50

PINUS NIGRA (Austrian Pine)

An outstanding Pine in the Middle West. Quite resistant to smoky atmosphere and irregular weather conditions. Has long needles, rich dark green. The dormant eyes at tips of branches are white and resemble candles. Grows about 12 inches a year. Ultimate height 50 to 60 feet.

2½-3 ft.....	\$ 8.00
3-3½ ft.....	10.00
3½-4 ft.....	12.50

DOUGLAS FIR

A very symmetrical, fairly compact tree with bluish green foliage that makes a fine yard tree. Ours is the true Rocky Mountain type that stands drouth well and it has always been used extensively in windbreaks.

3 to 3½ ft.	\$12.50
------------------	---------

PINE MUGHO

Very hardy. Spreading, dwarf, compact habit. Fine for rockeries, foundation plantings, used in front of larger growing varieties.

18-24 in.	\$ 9.00
----------------	---------

Plumfield **EVERGREENS**

GRAFTED JUNIPER VARIETIES

JUNIPER CANNARTI

VIRGINIANA CANNARTI, Cannart's Red Cedar. 20-30 ft.

Foliage deep, rich green. Main stem very straight. Branches almost horizontal. Requires shearing to attain compactness.

3-3½ ft.....\$12.50

JUNIPER MOFFETI

Another wonderful tree selected from the Rocky Mountains of Colorado and is a dandy tree. Foliage sharp, light greenish-silver color, tips of branches are more silver. Habit is upright and pyramidal, branches grow close together making a very dense tree. Grows about 12 inches a year. Can be sheared if desired.

3-3½ ft.....\$12.50

3½-4 ft.....14.00

MONTANA NO. 1

Montana No. 1 is a semi-dwarf, dark green tree and we are sure that this variety is one that you will be hearing a lot about in the future. It is not a new variety with us as we have been growing it for years but since it is a very slow grower it requires a longer time to build up an adequate supply to offer to the trade. This tree will be the answer to many of your landscape problems where semi-dwarf trees are desired.

2½-3 ft.....\$10.00

3-3½ ft.....12.50

BLUE HEAVEN

The Blue Heaven is one of the most colorful junipers that we have ever seen. It is a columnar type scopulorum that becomes more compact and beautiful with age. We have been producing this variety for a number of years and it has proved very satisfactory. If you desire a tree with outstanding blue foliage, then this is the tree to plant.

3-3½ ft.....\$12.50

JUNIPER WELCHI

The Welchi is the most satisfactory columnar type Scopulorum on the market today. Foliage is a light, evenly mixed greenish-silver. Leaves sharp but lay very close to the stem. Branches are very full and tufted at the base tapering out to a prominent point, yet they are sharply curved upward forming a fine outstanding columnar tree. Grows about one foot a year. Ultimate height 20 to 25 feet. Can be sheared if necessary.

3 to 3½ ft.....\$12.50

3½ to 4 ft.....14.00

4 to 4½ ft.....16.00

JUNIPER SUTHERLAND

This type of evergreen is definitely green in color as compared to the other varieties of Scopulorum. It is bushier in growth habit than the others, and consequently wider at the various given heights than is the case with other varieties of the same size. Its beauty in our opinion is to allow it to grow in a natural manner without shearing.

2½-3 ft.....\$10.00

3-3½ ft.....12.50

Plumfield SPREADING JUNIPERS

FOR FOUNDATION AND BORDER PLANTINGS

SABINA JUNIPER

Grows a trifle more upright than Pfitzer with fan-shaped branches. Is equally as hardy and has deep green foliage. Withstands smoky conditions in cities.

18-24 in.....	\$ 7.00
2-2½ ft.....	8.00
2½-3 ft.....	9.00

JUNIPER HETZI—Spreading type similar to Pfitzer Juniper. Outstanding silver foliage. Excellent landscape plant.

18-24 in.....	\$7.00
2-2½ ft.....	8.00
2½-3 ft.....	9.00

PFITZER'S JUNIPER

(*Juniperus chinensis pfitzeriana*)

Exceptionally beautiful, graceful and hardy—no wonder it is one of the most popular. Handsome, feathery, gray-green foliage covers the arching, spreading branches as it develops its broad, picturesque form. Hardy everywhere, and does well in shade as well as sunlight.

18-24 in.....	\$7.00
2-2½ ft.....	8.00
2½-3 ft.....	9.00

HORIZONTAL JUNIPER IN FOREGROUND

Horizontal Junipers for ground cover

A very desirable ground cover. Ideal for use in rock gardens, grave covering, terraces and around basement windows. Spreads reasonably fast, forming a dense, compact mat about 4 to 8 inches thick.

10 to 12 inch bare root plants, packed in wet moss.

\$1.50 each, 3 for \$4.00, Postpaid

TAXUS HATFIELD

TAXUS—JAPANESE YEWS

The aristocrat of all evergreens. It retains a foliage which is lush, rich dark green and waxy the year around. An ideal plant for shaded or partially shaded areas such as the north and east sides of buildings. Not suitable for plantings on the west or south sides of buildings unless there is sufficient shade from nearby trees. These can be sheared if so desired.

TAXUS HATFIELD (Hatfield Yew)—A plant with upright stems and considered to be upright. It develops a top which is slightly broader than the bottom. Foliage is very heavy and extremely dark green. Field grown. Balled and burlapped.

2 to 2½ ft.....	Each \$ 17.50
2½ to 3 ft.....	20.00

Why Landscape?

The vast demand for home landscaping in recent years is evidence that home owners everywhere realize both the necessity and aesthetics of having a more liveable home property. Use of the whole property in which to live, instead of just the house apparently satisfies a family need for living more naturally and comfortably amidst lovely trees and shrubs in a garden atmosphere.

Listed below are some of the reasons for landscaping:

1. It increases the resale value of the home materially, up to 50 per cent in exceptional cases, around 20 per cent on the average for a good planting.
2. Home landscaping is a sound investment increasing in value as the trees and shrubs grow. A small tree may cost only a few dollars. Ten years later the same tree may be worth \$100 to \$200, or more, depending on the variety. The value increases every year as the tree grows.
3. Landscaping gives the home a beautiful "lived in" look.
4. It provides pleasure and entertainment via outdoor, or "garden" living room, or terrace.
5. It provides lovely flowers in Spring and fruits at harvest time.
6. A lovely planting increases the respect of neighbors and gives the whole family more pride in their home.
7. It provides more natural relaxation and peaceful rest amidst trees and shrubs.
8. It offers lovely cut flowers to enliven dining tables and the indoors generally.
9. It makes the property cooler in summer by means of shade and vegetation generally.
10. It provides privacy in a crowded world.

Landscaping the home property is a bargain for the millions of home owners who have taken advantage of it. Prices have not increased commensurate with the rise in the general price level.

Plumfield

CONTAINER GROWN EVERGREENS

These are younger plants than our standard balled and burlapped grades of evergreens. They have been sheared several times for compactness. You are sure to get good survival anytime of the year you plant them as they are growing in one gallon metal containers and the roots are not disturbed in transplanting.

NOTE—Where shipment is desired, these are packed 5 in a one bushel basket. Order 5 of a kind or an assortment. Not prepaid.

David Fowler residence, Fremont, Nebraska.**

Plumfield Presents **Redmond Linden**

Redmond Linden was named in honor of C. M. Redmond, a nurseryman, who discovered the original tree growing in his yard in Fremont, Nebraska in the early 1920's. Its strong growth caught his attention and after nurturing it for 4 or 5 years he realized what an outstanding specimen it was. This parent tree is now nearly 50 feet tall.

Mr. Redmond brought it to the attention of Plumfield Nurseries, his employers, and we started to propagate it in limited quantities about 1927 by budding on American Linden seedlings. We have continued to produce the Redmond Linden since that time in sufficient quantities to test it thoroughly under various soil and climatic conditions. Trees have been sent to customers in almost all of the United States and we have received many favorable reports on its performance.

More than 30 years of careful observation under various conditions reveal the following merits of the Redmond Linden:

1. Proven hardiness.
2. Well adapted to a wide range of soil and climatic conditions.
3. Rapid growth.
4. Beautifully shaped — naturally without pruning — between pyramidal and columnar.
5. Easily transplanted.
6. Sturdy, straight trunk and strong, upright growing branches resist damage from wind, snow and ice.
7. Provides cooling shade with its large dark green leaves.
8. Adds pleasing color to the winter landscape from the rich crimson tips of its branches.
9. An outstanding lawn, park and shade tree for all modern plantings. Truly one of America's finest shade trees.
